Registration for the

**LANDSCAPE INDUSTRY CERTIFIED TECHNICIAN (LICT)
TRAINING PROGRAM**

**Classes start on June 5, 2019
at Urban Garden Center, Pearl City**

The landscape industry has become an important trade in construction and maintenance for commercial, private, government, and residential properties. Certification verifies quality, competence, and recognition in yourself, your company, and your clients.

This training program is designed to prepare candidates for the LICET Exterior Certification. We are offering two training classes this year:

- Maintenance (covers both Ornamental and Turf certifications)
- Irrigation

The training program will cover all three certification modules. All classes are scheduled to take about 2½ hours to 3 hours and most will be taught in classroom situations with some outdoor practical exercises. Tools and equipment will be operated during some of the classes. Students should come prepared by reading the training manual prior to attending each class, take notes, perform problem solving and calculations, and participate in hands-on demonstrations.

Madeleine Shaw via email at hlica33@yahoo.com or call at (808) 597-0708.

**LANDSCAPE INDUSTRY CERTIFIED TECHNICIAN (LICT)
IRRIGATION TRAINING PROGRAM
